RAMSEY JOINS GREENLEAF GENETICS MARKETING

(OMAHA, Neb.) – August 27, 2009 – Cindy Ramsey joined the marketing staff of GreenLeaf Genetics located in Omaha, Nebraska.

Ramsey is responsible for marketing program implementation, tracking and fulfillment for GreenLeaf Genetics customers. She will develop business processes and tools that support GreenLeaf Genetics internally as well as help customers manage their business interactions and business plan execution with GreenLeaf Genetics. “I am excited to join GreenLeaf Genetics because of their passion to provide independent seed companies with superior genetics and traits while keeping their customers profitability and success as the foremost consideration,” said Ramsey.

According to Bryan Kliewer, Vice President of Marketing and Sales, “Cindy is a great addition to our marketing team. Her insight into business planning and marketing program administration will help GreenLeaf Genetics deliver cutting edge trait stacks and proprietary genetics through a more comfortable business approach.”

Ramsey is familiar with the seed industry through her previous work at Golden Harvest. While at Golden Harvest, she worked in the sales and marketing department as well as in finance. Ramsey received her degree from Creighton University in Psychology and Philosophy.

GreenLeaf Genetics LLC

[GreenLeaf Genetics LLC](#), a joint venture between [Syngenta](#) and Pioneer Hi-Bred International Inc., a subsidiary of [DuPont](#), offers licenses for corn and soybean genetic material to foundation seed houses and seed companies and facilitates the licensing of biotech traits from its parent companies. GreenLeaf Genetics is currently helping more than 200 seed companies to access genetics and traits from Syngenta and Pioneer.
